

The Ford Falcon Registry

What is the Ford Falcon Registry?

The Ford Falcon Registry is a comprehensive online Ford Falcon Registry and Restoration reference website for the 1960 thru 1970 ½ U.S.A. made Ford Falcon automobile.

I designed this site from scratch beginning in the Spring of 2001 after looking at existing Falcon web sites and finding them lacking the information I wanted and needed to restore my '63 Falcon Fordor. The first thing that I needed was an online Data Plate decoder. There were a few sites out there, but I decided to take the best of what I saw out there, improve on it, and make the best Falcon site available. I'm sure you will agree.

The Falcon Registry is a [Membership fee based](#) subscription website. Becoming a subscribed member gives you access to all the functionality and information contained herein for the length of your subscription. Subscriptions are for 1-year, 1-month or the 1-Day Quick Access. I am constantly updating the site so it is always fresh and interesting.

Becoming a member is up to you. No groveling for money going on here. Your subscription fee helps cover expenses for running the site and improvements to the content. It is as simple as that. In return, you get a valuable Falcon restoration resource.

Why Join the Falcon Registry as a paying member?

- To decode your Falcon Data Plate with accuracy. (See #1)
- To Register your Falcon (See #2) [NOW FREE!](#)
- To view my impressive collection of Falcon Photos (See #3)
- To use the Falcon Technical Information Library (See #4)
- To Buy or Sell Falcon Cars or Parts (See #5)
- To view exclusive "member only" features

1) **Falcon Data Plate Decoders** out there are for the most part, are limited in functionality and accuracy. My data plate decoder decodes ALL U.S.A. made Falcon models with accuracy. The program I designed that decodes a Falcon turned out to be very complicated and has turned out to be more accurate than the original Ford Manuals. I take into account the mid-year changes that Ford made for various models that didn't make it into the Ford manuals. With over 13,000 decodes performed to date, it has become the most accurate decoder available for your Falcon, guaranteed.

2) **The Registry** contains an organized listing (by year and model) of over 1900+ Ford Falcon owners. This helps you determine how rare your model might be and who still owns the Falcons that are still out there. General data about your car is displayed for other owners to compare against your data. This is most comprehensive list of Falcon Owners available online. Any Falcon owner who comes to this site may register their car into the Registry.

3) **Photo Image Library** – No other web site offers the comprehensive collection of Falcon images I have here. Over 6700+ and counting of every year, model, and trim level produced. This includes Exterior, Interior, Trunk, Engine compartment etc. A invaluable restoration resource! I am constantly adding images from car shows; user submitted photos as well as other resources.

4) **Technical Information Library** – A valuable restoration and nostalgia resource. Find out how many Falcons matching your model interest were produced. Paint Chip Charts, Original Sales Brochures, original magazine ads, Shop Manual sections and Ford Part Manual Illustrations. I have an extensive collection of Falcon literature that I have purchased over the years that is included here. The library is always being added to. Check back often!

5) **The Swap Meet** area is a place where you can Sell or Buy Falcon Cars and/or Parts. Members can SELL as many items as you need during your membership. Non-members that visit the site may only BUY items listed. You can use the 1-Day access to sell a car or item for as long as you need it here.

Membership Fees:

1-Year: \$20.00

30-Days : \$10.00

1-Day Quick Access : \$5.00 (24-48hrs)

You can pay using PayPal (accepts Credit Cards) or by sending me a check (Certified, Money Order or Personal). Checks must clear before I activate your account.

Note: The 1-Day access is provided so you can decode, research and register your Falcon, or to put some items For Sale in the Swap Meet selling area.

Complimentary Membership Offer:

If you have something that I could add to the Registry, I could offer you a complimentary membership. If you have a brochure, owners manual, ad or some other interesting thing that would benefit the Falcon community, just email me at falcon_reg@yahoo.com and let me know what you can offer. I can scan whatever you have and return it to you if you don't have that capability.

I hope you enjoy the Falcon Registry as much as I do. I am its most frequent user and so I take great pride in every page it contains. I hope you have as much fun with it as I do!

If you have any questions concerning membership prior to joining the registry, feel free to email me at:

falcon_reg@yahoo.com

Regards,

Jon Shuppy
